

# Raimondo Residence

Lake Wylie, SC

The Raimondo family resides in the beautiful River Hills community located just south of Charlotte in Lake Wylie, SC. The neighborhood was established in the early 1970s. The intermingled golf course was designed by renowned architect, Tom Jackson. Understandably the neighborhood has a very strict and respected process for building, updating, and expanding structures in the community.

The Raimondo family hired a local architect, John S. Mang, who also resided in the neighborhood and had close ties with the architectural board to design their new home. JSM Architects commissioned S2A to create architectural and structural construction drawings. Additionally, S2A provided 3-dimensional renderings for elevation materiality studies and landscaping options.
