

## **Sumiden Wire Texas Plant**

## Dayton, TX

Sumiden Wire Manufacturing Plant opened its 100,000 square foot facility in 2017. The facility is in Dayton, TX and specializes in manufacturing prestressed concrete strand wire. The new plant brought in 25-30 new jobs to the community. DIA provided architecture services and Blaine Construction built it. S2A assisted in development of design development BIM and construction documentation.
