

INTEGRATION

# Hollingsworth Virginia

## Prince George, VA

Hollingsworth Companies contracted S2A to provide exterior renderings for the Prince George, VA facility location. S2A used the provided cad files to help create the exterior renderings. The renderings include materiality of the facade of the building, landscaping, and other site elements. The photo-realistic renderings helped the contractor to visualize the spatial relationship and get a better understanding of what the materiality will look like before the construction phase.
