

Sterchi Storefront

Knoxville, TN

Sterchi Lofts is located in the Old City of Knoxville. The Sterchi Building was built in 1921 and used to be the headquarters for the Sterchi Brothers Furniture Company. In 2002, Leigh Burch III and John Gumpert renovated the building into 100 loft-style apartments. Terminus Real Estate now manages the units. Sterchi has had numerous upgrades including energy efficient appliances, HVAC units, kitchen and bathroom finishes and a redesigned fitness studio.

S2A was contracted to point cloud scan and model the storefront and entryway for future renovation purposes. S2A also created floor and ceiling plans, and perspective view drawings.
